	SNOWSPORTS INSTRUCTOR SB	**43**	**433**	**111**	**215**

The path to becoming a **Landes Snowboard Instructor (Level 3)** starts with gaining the qualification for the **Snowboard Instructor Anwärter (Level 1+2).** This qualification can be completed taking the 10 day Snowboard Anwärter course **(Level 1+2)** or the **National Snowboard Instructor (Level 1)** 5 day module together with the **Snowboard Instructor Anwärter (Level 2)** 6 day module.

This qualification is needed in order to continue through the both qualification systems **Landes Snowboard Instructor (Level 3)** and **Alpine course.** There are 10 days of practical work to do in a ski school during both qualification systems **Snowboard Instructor Anwärter (Level 1+2)** and **Landes Snowboard Instructor (Level 3).** A L**andes Snowboard Instructor (Level 3)** qualification is a prerequisite to taking the Alpine course module.

A successful completion of the qualifications together with the practical working hours leads to the **Snowboard Instructor Landes (Level 3)** qualification. This qualification is internationally regarded as equivalent to the international ISIA qualification. In addition a **Ski Anwärter** 5 day module can be completed in order to gain a **Snow Sports Instructor in Snowboard** qualification **(Level 3+)**.
